WHERE IS THE CORONER?
At the request of many intimate friends of the late Governor of the Honolulu Jail, Mr. Wm. Buckle, we went yesterday to inspect the site of the lamentable accident and learn accurate particulars concerning it. An official tells us that the deceased arrived at the jail about 4 o'clock on Sunday morning, Dr. Brodie saw his body at daybreak and says that he had then been dead for 20 minutes. It is said that, in falling over the parapet, the deceased smashed a window which was set back in the wall, about 18 inches. Above the window it is almost impossible that he could have fallen, and, if he fell to either side, the window could not have been touched and it seems improbable that he could, in a fall, from any part of the parapet, have smashed it.

Dr. Brodie made no examination of the body and has not been called upon to do so. He reports a bruise on the deceased's forehead which did not fracture the skull. There may have been other bruises but he does not know; neither does he know whether the deceased died from apoplexy or heart disease, or if his neck were broken by the fall. All traces of the accident, except the two broken windows, have been removed, the earth has been disturbed to remove traces of blood and a fresh curb stone has been placed on the side walk. The only thing that has not been done is the holding of any inquiry or post mortem examination. Why has this not been done? Why is it desirable to hush the matter up? Why not let the public, his friends and relatives know the cause of the unfortunate sudden death? In their interest we ask the Attorney-General to instruct the Coroner to do his duty, to hold a post mortem examination and a thorough enquiry into the cause of the death of the late Mr. Wm. Buckle.

Since the above was written Marshal Parke stopped the funeral from taking place yesterday afternoon, and ordered an inquiry and post mortem examination to be held. We hope that in future a similar course will be adopted in the case of every

sudden death that may occur in the community.

LUNATIC ASYLUM ROAD.

EDITOR BULLETIN:—We, the residents in the neighborhood of the Lunatic Asylum, are under obligation to you for having formerly, on more occasions than one, called the attention of the government to the bad condition of our road and advocated practical recognition of our just demands. We had hoped that your earnest and reiterated representations would have resulted in some little attention being paid us long ago. In fact, we were distinctly told by a government official that when a certain road was completed, then being made, ours should come next. But, I am sorry to confess, we were badly fooled; for the said road was finished long ago, and is now nearly ready to be made over again, but our road has never yet been touched. It is really too bad. We would not have felt half so sore had not our hopes been raised and then disappointed. Better to have said in the first place that we must not expect anything than to have deceived us.

But why cannot we have something done for us as well as other districts? We pay our road tax, and some of us have done so for many years, without receiving any benefit in return. Our only way of ingress and egress, unless by going all the way around the old What Cheer House, is by the road leading from King Street, opposite the Reformatory School gate. Nothing has ever been done for this road but what has been done by the residents. In dry weather we can get along very well, and do not complain; but when it rains the mud is something frightful. So bad was it during a part of last month that my children could not go to school for two or three weeks, and my neighbors were compelled to keep their children at home for the same reason. Now again it is in a dreadful condition, although not so bad as then. Will the government take no pity on us?

I have just been informed, since writing the above, that the authorities say our road is not a regular government road, and therefore they cannot expend any money on it. I am aware that this road was not in the original government survey, but has been voluntarily given by land owners along its course. Then, if I am correctly informed, because we have been willing to do so much for ourselves the government consider we are not entitled to any assistance from them. The neighborhood was without a road; it needed one badly; the residents gave their land for the purpose of making one, and threw it open for the use of the public; and now we ask the government to lay out a little of our tax money on it to make it passable in rainy weather. Is this an unreasonable request?

The elections are at hand. This neighborhood has a good many electors. The candidate that will give us satisfactory assurance that he will do his utmost in the Legislature to secure a practical recognition of our rights may rely upon our votes.

A Minister of the United States cannot afford to take any honors, direct or indirect, under the government to which he may be accredited, which by possibility might impair the most perfect freedom of his action or cast suspicion upon his motives. Whenever he yields to that weakness, supposing it to be nothing worse, his usefulness is materially impaired, if not wholly lost.—V. F. San.
